Tell a Story

Target - Beginner Readers

6 wordless illustrated books

A newly released set of six of delightful wordless books for kindergarten and preparatory children to have the opportunity to discuss each page, while securing the vocabulary and expressive language needed to tell the story in their own words. Designed to help young children become confident communicators, develop language, comprehension and vocabulary - ideal for children who need support in their oral pre-reading skills. Questions are included in each book to help the child explore familiar settings, emotions and situations, stories, predictions and the ability to sequence a story.

Reading Book with Consonant Blends

Dandelion Launchers Units 8-10 is series of 12 simple, decodable books that introduce consonant blends. Each unit enables the student to read 4 different books and stories. There are 4 books in each unit, providing practice while offering different stories. Each unit introduces new letters/sounds while revising previously taught phonic letters/sounds and high-frequency or sight words.

Unit 8: VCC, CVCC

Unit 9: CVCC

Unit 10: CCVCC

Game page

On the next page is a game for two to help the pupil practise reading the words in this book.

Photocopy the page twice and cut up one page to make word cards.

Cut the other page in half to make two base cards. Place the word cards face down on the table.

Take turns to pick up a card.

Read the word aloud.

Place the matching word card on your base card. If you cannot match the word card on your base card, put it back face down with the other cards.

The winner is the first one to fill their base card!

Encourage the reader to say the sounds in the word and blend the sounds together fast throughout the word. The teacher/parent should model this phonic approach whilst playing the game.

Fantastic Phonic Books for Older Readers

Welcome to the catch-up range of Phonic Books

Interest age 8-14 years

These phonic books specialize in synthetic phonic reading books for catch-up readers. These students, for various reasons, have fallen behind their peers and are finding reading challenging. Many catch-up readers have experienced loss of confidence and low self-esteem. A range of catch-up reading books include the Moon Dog, Magic Belt, Alba, Totem & Talisman Series.

These books have been designed by experienced Special Needs and Dyslexia trained teachers. They take into account and address the following issues:

1. Many children fail to read fluently because they have poor phonic knowledge and skills. The phonic step-by-step progression of these books aims to fill the missing phonic gap.
2. Older, challenged pupils need books that are age appropriate in story and illustrations. The stories and illustrations of this range of books are designed to be engaging and appeal to the older reader.
3. Many children need to practice their phonic skills before they can develop their reading fluency. The accompanying workbooks and reading practice page offer this essential practice.
4. Children need to be taught to chunk words with more than one syllable to be able to decode a wide range of words in English. Multi-syllable words are chunked at the bottom of each page of the reading books.
5. Many struggling readers have limited vocabulary. These books and workbooks introduce new vocabulary within the context of a meaningful text.
6. Reading (decoding) and spelling should be taught hand in hand. The workbooks include spelling activities at every stage, including words with one or more syllables.

Moon Dog Series

Target - Catch-up Older Readers

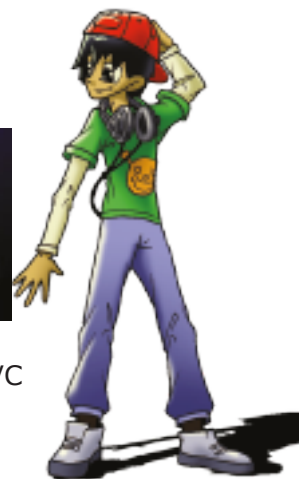

The Moon Dog Series is designed to appeal to older 'catch-up' pupils at the very early stages of reading. The series offers two sets of books, each set containing eight books. Set 1 introduces sounds gradually and reinforces reading these in CVC words. All words are at CVC level with one line of text to the page. Set 2 begins with text at CVC level and continues through the digraphs ch, sh, th, ck, ng, qu and wh. The series is designed around a group of teenage friends who are in a band and offers short, humorous stories about their lives. Reading skills are developed through step-by-step progression which allows practice and consolidation at each level. The series and accompanying workbooks complement any synthetic phonics teaching programme.
